### Matron and Housekeeper.

MISS S. MIDDLETON.

### Store-keeper.

MR. J. BROWN.

# REPORT

OF THE

# COMMITTEE OF VISITORS.

---

*To the Court of Quarter Sessions for the County, and to the Town Council of the Borough of Nottingham.*

In pursuance of the Statute 16 and 17 Victoria, c. 97, s. 62, the Committee of Visitors report:—

THAT the number of lunatics of all classes under care this day, the 31st December, 1867, consists of—

| MALES. | FEMALES. | TOTAL. |
|---|---|---|
| 167 | 171 | 338 |

The space left unoccupied is sufficient for 91 patients, viz.—

| MALES. | FEMALES. | TOTAL. |
|---|---|---|
| 35 | 56 | 91 |

The Asylum can therefore accommodate 429 patients, viz.—

| MALES. | FEMALES. | TOTAL. |
|---|---|---|
| 202 | 227 | 429 |

There is now ample room provided for several years for any prospective increase in the number of lunatics under the present legislative enactments.

The recent addition to the Females' side of the house referred to in the last report, has been completed, and a portion was brought into occupation in June last.

At the close of the year 1866 the numbers were—

| | MALES. | FEMALES. | TOTAL. |
|---|---|---|---|
| On the books ... | 167 | 177 | 344 |
| Admitted since ... | 44 | 51 | 95 |
| Discharged recovered ... | 13 | 26 | 39 |
| Do. relieved ... | 5 | 13 | 18 |
| Do. not improved. | 0 | 1 | 1 |
| Died ... ... | 26 | 17 | 43 |

Compared with the previous year the changes are as follows:—

| | Admissions. | Recoveries. | Removals. | Deaths. | Patients Dec. 31. |
|---|---|---|---|---|---|
| 1866 ... | 102 | 43 | 11 | 42 | 344 |
| 1867 ... | 95 | 39 | 19 | 43 | 338 |

The sanitary condition of the establishment has been satisfactory.

The stone and plaster floors in the corridors and dormitories are being removed and replaced with boarded floors.

The periodical Parliamentary Inspections have been regularly made by your Committee, and the state of the Asylum and Patients found entirely satisfactory.

The Lunacy Commissioners visited the Asylum on 24th Aug. and left their report, which will be printed for circulation with the accounts in February.

The offices of medical assistant, and of matron and housekeeper having become vacant during the year, Mr. William Stanger was appointed to the former and Miss S. Middleton to the latter situation.

The following desiderata will probably receive the attention of the new Committee:—

The land last bought in Walker Street requires to be enclosed by a brick wall; or, that it might be leased upon such terms as should be satisfactory.

Several of the white-washed corridors would be improved by being painted shoulder high.

A separate and entire recreation room appears to be necessary for the use of the patients, which could be used for that purpose much more frequently than the Laundry, which is now used only occasionally.

WILLIAM VICKERS,

CHAIRMAN.

JANUARY 2, 1868.

# ANNUAL REPORT

## OF THE SUPERINTENDENT.

Mr. Chairman, my Lord, and Gentlemen,

I have the honour to present my Annual Report of the admissions, recoveries, deaths, and other particulars relating to the insane poor under care in this Asylum, for the year ending 31st December, 1867. The changes are as follows:

| | | | | M. | F. | T. |
|---|---|---|---|---|---|---|
| Patients remaining 31st December, 1866 ... ... | | | | 167 | 177 | 344 |
| ,, admitted during 1867 ... ... ... ... | | | | 44 | 51 | 95 |
| Total under Treatment ... ... | | | | 211 | 228 | 439 |
| | M. | F. | T. | | | |
| Discharged Recovered .. | 13 | 26 | 39 | | | |
| ,, Relieved ... ... | 5 | 13 | 18 | | | |
| ,, not Improved... | 0 | 1 | 1 | | | |
| Died ... ... ... ... ... | 26 | 17 | 43 | | | |
| | 44 | 57 | 101 | 44 | 57 | 101 |
| Remaining 31st December, 1867 ... ... ... ... | | | | 167 | 171 | 338 |

There is a diminution of six in the number of female patients; the males remaining the same. The reduction is mainly attributable to the circumstance that a larger number than usual of the harmless chronic class have been discharged to the Nottingham Union Workhouse and to the care of their friends. The patients admitted during the year were fewer by seven, which has tended to prevent the usual annual increase on the gross number.

With regard to the character of the cases admitted, the practice of sending in aged persons, the subjects of mental and bodily infirmities, to end their days in the Asylum, appears to be on the increase. Two of this class were above eighty, and eight were above seventy years of age. There seems to be a great practical difficulty in treating the so called harmless chronic cases satisfactorily in the Workhouses unless a systematic accommodation, both in fabric and maintenance, be provided and brought up to the Asylum standard in cost and care.

The cases deemed curable are 18 males and 25 females.

The daily average of patients resident during the year was 337 or 10 fewer than in 1866.

The re-admissions were ten men and four women.

The recoveries—39 furnish a ratio of 41 per cent on the admissions, and this varies but slightly from year to year. Twenty-two of these persons who were restored to their homes were supplied with donations from the Lady Middleton Charity, for the purpose of assisting them during their search for employment, and thus preventing them from becoming a burden to the parish.

The deaths, 43 in number, were due to ordinary causes, with the exception of three which were sudden. The circumstances attending these were enquired into by the Coroner and verdicts returned respectively of 1st, "Died from purpura and syncope, suddenly;" 2nd, "Died from a paralytic seizure and not otherwise;" 3rd, "Found dead in bed, and that death was caused by an epileptic fit and suffocation."

Four of the persons who died were above eighty years of age and six above seventy. The rate of death was 12.74 on the daily average of residents, and 9.79 on the total number under treatment. The mean age at death was 52 years and 101 days; the average for men being 51 years and 350 days, and for women 52 years and 279 days.

The Institution was happily free from suicide during the year. Among the general population of the Registration County of Nottingham about 27 persons, or 8 women and 19 men voluntarily seek death annually, as will be seen by the returns of the Registrar General.

| YEAR. | MALES. | FEMALES. | TOTAL. |
|---|---|---|---|
| 1862 | 20 | 8 | 28 |
| 1863 | 20 | 11 | 31 |
| 1864 | 18 | 7 | 25 |
| 1865 | 19 | 5 | 24 |

It seems highly probable that more than a third of these unfortunate persons might, if brought under remedial treatment, be found to be curable.

The price of provisions has been high during the last two years, but the relative cost of maintenance has been moderate when compared with that of similar establishments. I find from a recent return of the Commissioners that 37 are higher, 1 equal to, and 9 lower than our own.

I have pleasure in stating that the conduct of those employed in the various departments has been generally such as to merit commendation. Notwithstanding the additional risk attending the erection of the new wing and the open state of the premises, no accident or escape occurred during the progress of the works.

All which is respectfully submitted.

WM. PHILLIMORE STIFF, M.B.

SUPERINTENDENT.

COUNTY AND BOROUGH LUNATIC ASYLUM,
SNEINTON, NEAR NOTTINGHAM,
JANUARY 16TH, 1868.

# REPORT

OF THE

# COMMISSIONERS IN LUNACY.

---

NOTTINGHAM COUNTY AND BOROUGH ASYLUM,

24th August 1867.

THE changes in the Patients since 24th Sepr. 1866, the date of the last visit by members of our board, and their present number are set forth in the following table:—

| | M. | F. | T. |
|---|---|---|---|
| Admitted ... ... ... ... | 41 | 45 | 86 |
| Discharged and Removed ... | 18 | 30 | 48 |
| ,, of whom recovered ... | 13 | 16 | 29 |
| Died (all from ordinary causes) | 22 | 18 | 40 |
| Present numbers ... ... ... | 167 | 176 | 343 |

Among the Patients discharged not recovered were 9 (1 man and 8 women) who in the last January Half-Yearly Return, made in pursuance of the 34th Section of "The Lunacy Acts

Amendment Act 1862" to the Nottingham Union, were reported as "not dangerous to themselves or others." In compliance with an application from the Guardians, the Patients referred to were discharged by the Visitors, and removed on the 7th February to the Workhouse as harmless chronic cases. Without questioning the propriety of the course adopted in this instance, we think it important to observe that, before sanctioning the removal of Pauper Lunatics from Asylums to Workhouses, the Visitors should by consultation with the superintendent, satisfy themselves not only that the Patients are harmless and probably incurable, but, that in other respects as to their mental and bodily condition, habits and conduct, they have ceased to be proper persons for special care and treatment in an Asylum. Experience abundantly proves that Patients coming within the class under consideration, when deprived of the advantages of Asylum treatment, including superior diet, and opportunities of out-door exercise and recreation, frequently relapse, and require shortly to be sent back.

In two cases of sudden death, both in the male division, Inquests were held, and verdicts found of deaths from natural causes.

The sanitary state of the Asylum continues to be satisfactory; the Patients registered as under Medical treatment for bodily ailments, being at present 7 in the male and 15 in the female division.

According to the Medical Journal, since the last visit 7 male and 17 female Patients have been placed in seclusion during paroxysms of excitement, the former altogether on 22 and the latter on 101 occasions.

The ward Returns relative to employment shew the following results:—

| MALES. | | FEMALES. | |
|---|---|---|---|
| Garden and Grounds ... | 20 | Needlework &c. ... | 29 |
| Trades ... ... ... | 9 | Laundry department | 31 |
| Wards ... ... ... | 54 | Kitchen ... ... | 7 |
| Others ... ... ... | 5 | Domestic Work ... | 23 |
| Total ... ... | 88 | Total ... ... | 90 |

The paid artisans are 6 in number, viz:—a Tailor, a Joiner, a Baker and Brewer, an Engineer, and two Gardeners.

Partly in consideration of the diminution of the numbers of Patients, the staff of attendants, 9, and a night attendant in each division, has not been increased.

The latest Returns shew the following as the numbers attending Divine service in the Chapel; the ventilation of which has been improved, viz:—

| | M. | F. | T. |
|---|---|---|---|
| Sundays ... ... ... ... | 60 | 80 | 140 |
| Week days ... ... .. | 45 | 43 | 88 |

We have to report most favourably of the demeanour and personal condition of the Patients of both sexes. There was no excitement, and the clothing, which is all made in the Asylum, was good, and judiciously varied in colour and material. We thought their state generally very creditable to the attendants. We noticed 10 or 12 male Patients of destructive or offensive habits, still clad in special fustian dresses, which were clean, but the use of which we trust may be gradually dispensed with.

In reference to the last report we have to state as follows:—

(1st) The ventilation of the small dormitories in the old building noticed as deficient in cubical space, has been materially im-

proved by means of openings in the ceilings communicating with the roof, and by the removal of the brick work which closed up the chimneys, and the insertion of fire grates.

(2nd) The roads and walks have been improved, and seats are in progress of being placed on the walks round the Kitchen garden.

(3d) The additions to the detached block on the female side, have been completed. They are furnished with every convenience, are well arranged, and afford excellent accommodation for 50 patients. The construction of the central block, allows of certain rooms on the upper floor being assigned as required or convenient to one sex or the other.

The amount of vacant accommodation is considerable; the number of beds in excess of the present number of patients being as many as 40 in the male division and 46 in the female.

We submit for the consideration of the Visitors, whether advantage might not beneficially be taken of this surplus accommodation to receive, at least for a time, Pauper Lunatics, for whom adequate provision is not now, but is in progress of being made in other districts.

Amongst other improvements since the last visit, we have to report the following:—

(1st) Boards have been substituted for the stone floor in the large dining room in the female detached block.

(2nd) Three single rooms, which had stone floors have been boarded.

(3d) Ten windows have been lowered and sashes introduced. Orders have been given for the substitution of boarded for the present stone floors of all the flagged galleries and bedrooms.

Mr. W. Stanger has succeeded Mr. Marsh as assistant Medical Officer.

The Asylum, the atmosphere in which was throughout pure at the time of our visit, is in very satisfactory order.

R. W. S. LUTWIDGE,
ROBERT NAIRNE,

COMMISSIONERS IN LUNACY.

# APPENDIX.
